

## **RYA Coastal Skipper/Yachtmaster Offshore Navigation Theory Course**

**Wuppertal, Germany, 6 days:  
Saturday, Mar 11th – Monday, Mar 13th 2017 &  
Saturday, Mar 24th – Monday, Mar 27th 2017  
630 Euro**

Includes all course materials, e.g. practice charts, training almanac, Portland plotter & dividers and RYA shorebased course certification (subject to passing written examinations during the course).

This intensive 6 day course provides sailors and motor boaters with advanced offshore navigation techniques. It is highly recommended for anyone about to take their RYA/MCA Yachtmaster practical exam. Topics include:

- Advanced chart work and position fixing
- Accurate calculation of secondary port tidal heights (as simply as possible)
- Interpreting synoptic weather charts
- Navigation in restricted visibility
- Passage planning
- Collision avoidance regulations
- Electronic navigation

**Enhance your navigating abilities and gain a worldwide respected nautical qualification in our calm, pressure-free learning environment with maximum individual attention from your helpful, friendly instructor.**
